

GPSC Series X-Arm Electric Projector Lift

Retracted Appearance

GPSC 5010B

Product Features

- * The ultra-thin electric lift uses an X-shaped composite arm with two high-strength, flame-retardant fabric belts, ensuring smooth and stable operation under load.
- * The frame is made from high-strength aluminum and covered with a painted sheet metal, isolating the projector from its surroundings for full protection.
- * Hidden installation design that blends seamlessly with the ceiling when retracted.
- * Equipped with electronic position control and one-click setup for easy operation.
- * Includes Graffiti IoT connectivity, enabling voice control via AI speakers.
- * Supports dry contact, RS-485, wireless remote control, and both wired and wireless trigger control.

Gear-Hinged Joint

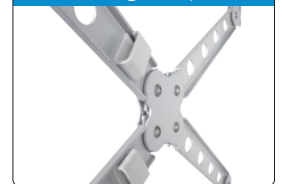

Separate Projector Mount

Vertical Adjustment of Mounting Bracket

Built-in Cable Storage Clips

Product Specifications Table
