

Model C/D

Skyshow Series Tab-Tension Screen

Max 300" Projection Screen Solution For High Ceiling Space Case

Design Philosophy

The Skyshow C/D Series Motorized Tab-Tension Screen features a professional tensioning structure that maintains exceptional flatness across large-format surfaces, eliminating wrinkles during operation. Combined with a three-cable suspension system and synchronized winding mechanism, it forms a stable and secure solution for high-ceiling installations. Its patented lifting design offers up to a 5-meter extended travel range, making it ideal for banquet halls, theaters, exhibition centers, and other ultra-high spaces. The industrial-grade electromagnetic braking gear motor delivers smooth, quiet operation with minimal heat buildup, ensuring long-term reliability. It provides a powerful balance of safety, visual impact, and operational efficiency for demanding high-ceiling projection projects.

Product Specifications

Unit of measurement: mm									
Aspect Ratio	Diagonal Measurement	Viewing Area (W×H) mm	Black Drop (B3) mm	Lower Border (B2) mm	Left/Right (B1) mm	Product Height (A) mm	Product Length (L) mm	Model C/D	Wire Total Extending Height (Ls) mm
4:3	180"	3658 × 2743	80	85	70	8219	4171	D	5000
	200"	4064 × 3048	80	85	70	8524	4577	D	5000
	300"	6000 × 4500	80	85	80	10030	6577	C	5000
16:9	150"	3321 × 1868	80	85	70	7344	3834	D	5000
	180"	3985 × 2241	80	85	70	7717	4498	D	5000
	200"	4428 × 2491	80	85	70	7967	4941	D	5000
	220"	4870 × 2740	80	85	80	8270	5447	C	5000
	250"	5535 × 3133	80	85	80	8643	6112	C	5000
	300"	6600 × 3712	80	85	80	9242	7177	C	5000
16:10	150"	3231 × 2019	80	85	70	7495	3744	D	5000
	180"	3877 × 2423	80	85	70	7899	4390	D	5000
	200"	4308 × 2692	80	85	70	8168	4821	D	5000
	220"	4739 × 2962	80	85	80	8492	5316	C	5000
	250"	5385 × 3365	80	85	80	8895	5962	C	5000
	300"	6462 × 4039	80	85	80	9569	7030	C	5000

Core Advantages

Two-In-One Power Structure
Integrated single motor power system drives both the winch and the screen lifting.

Long Service Life
Industrial electromagnetic braking motor supports repeated operation without overheating, ensuring durability and long-term stability.

Flexible Control Options
Supports wireless remote control, RS485, and dry contact interfaces for centralized and remote system control.

Core Tab-Tension Structure
Ensures uniform tension on both sides of the screen, preventing slackness and wrinkles during deployment and retraction.

High Safety Margin
Three steel cables provide evenly distributed three-point lifting, ensuring synchronized and stable screen movement with enhanced safety.

Patented Top Bar Adjustment Mechanism
Eliminates "V" shaped wrinkles by addressing mid-screen sag in larger, heavier screens.

Compatible Screen Fabrics

WW5
Standard Throw PS White

UHD130
Standard Throw PS White
